The question was then submitted to the city attorney of Jackson-wille for his legal opinion thereon. F. A. WERMAN, OF BALTIMORE, SAYS:

RALTIMORE, Md., March 50, 1901.

Gentlemen: — Being entirely cured of desfiness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right car began to sing, and this kept on getting worse, until I lost my hearing in this car entirely.

I underwent a treatment for catarth, for three months, without any success, consulted a number of physicians, among others, the most emittent ear specialist of this city, who taid me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain
